NO. 24

Head for Governor.

Mayor W. O. Head, of Louisville, is out in the following card for Governor of Kentucky.

To the Democrats of Kentucky: Since my election as Mayor of Louisville I have been receiving letters from Democrats throughout the State urging me to become a candidate for Governor. I have an ambition to be Governor of Kentucky, and I now desire to make announcement of my candidacy for that office, subject to the action of the Democratic party.

Prior to the November election of 1909 all the offices in the city of Louisville and county of Jefferson were in the hands of Republicans. The Democrats of the Fifth district bucked down and made a fight, not only to place Democrats in charge of our local affairs, but they made a fight preparatory to swinging Kentucky back into the Democratic column. All our city and county offices are now filled by Democrats who are ready to put their shoulders to the wheel to make Kentucky Democratic in 1911, and we are going to do it.

I was reared on a Kentucky farm in Hopkins county. I grew up to young manhood there and whatever success I may have attained in the business world here I owe to the hardships I underwent and the knowledge I acquired in the tobacco fields of my native county. I learned then and know now that a State government can render invaluable aid to the agricultural interests of a State. From my youth I have been in close touch with the farming interests of Kentucky. I feel that I know what our farming interests require. What Kentucky needs is the further development of her rich fields, natural resources and great manufacturing interests.

The farm is the basic unit of all our prosperity. If the farmers do well, the business men succeed, laborers have steady employment and get a good price for their labor. Let us see that our farmers are given the aid in Kentucky that they are given in other States.

I want more schools and better schools in Kentucky, and then I want good roads that will lead to the schoolhouses, where teachers of advanced ideas will instill into the minds of the children, not only the ordinary rudiments of education, but the necessity of obedience to law and the importance of the agricultural and commercial development of their native State.

With more aid from the State to the agricultural interests, more and better schools and better highways, Kentucky will advance by leaps and bounds.

A great Commonwealth like Kentucky should not be in a state of bankruptcy. Let us have more business and less politics in our administration of State affairs.

I have thus outlined some of the things for which I stand and some of the questions I intend to present to our people.

There has been too much talk and not enough action in Kentucky. Now let's get down to business and the world will wonder at our accomplishments.

Very respectfully,
W. O. HEAD,
June 14, 1910.

Cows Wanted.

For pasture on Orphans Home place. Can furnish grazing for ten more cows, would also appreciate the gift of a couple of high chairs for little folks too low to sit on ordinary chairs.

Patrick Henry.

Dr. Talmage.

Rev. Frank DeWitt Talmage, of Philadelphia, is coming to visit the Missions of Soul Winners Society in the Cumberland mountains during the month of July. While in Philadelphia last fall, Dr. Guerrant President, of the Society, lectured for Dr. Talmage in his church, and the Doctor became so much interested in this great work that he is coming to visit the Missions and preach to the mountaineers. He will visit the Orphans' Home at Clay City and the Canyon Falls Academy, the Highland College and the Brooks Memorial Institute, the Witherspoon Log College, and the Riverside Academy and other Missions of the Society. We are glad to know of the interest our Northern friends take in this great work, and the valuable assistance such a distinguished man can render to these long neglected but worthy people.

He will lecture at Clay City, Thursday night, June 30th. Everybody cordially invited.

New Ball Teams.

For a time it looked as if though Clay City would not have an organized ball team, but we learned that it would not be this way while on the streets Tuesday. There are two clubs we learn now in training. One club will be known as the Honnaker-Brinekers and the other club is called the Paper Collars. These clubs will play each other on the home grounds, and from the demonstrations of their superior skill in the game their playing promises to be far more interesting than any ball playing that has ever occurred in this city even between the strongest contesting match teams. Don't fail to witness their initial game the date of which will be announced later.

No Celebration Yet Planned.

July 4th will soon be here and no provision for a picnic for Clay City this time. Four-fifths of the picnic promotion has moved away and it seems that the entertainment must go overboard this year. We have not had a single show this summer and this is something unusual, now no Fourth of July celebration and just a little after the election our saloons will close, then we suppose the last breath of life and fun will pass from us with nothing but tiresome business to occupy our time and attention, as most our people are too sleepy to attend church.

Soft drink establishments in local option towns are said to be second only to saloons in their distastefulness to temperate people and to cope with them at Richmond the City Council there has raised all soft drink and pool room license to \$500 per year, and no minors are allowed in these joints.

The report circulated some weeks ago that the L. & E. road had sold to the L. & N., has never been confirmed though it is believed to be true by many of the railroad men who yet say they do not know it to be a fact.

Our Judge.

The Western Newspaper Union, of Cincinnati, which supplies local papers with plate and ready print stock is giving a write-up of Kentucky's most prominent Judges. Judge Benton being one of them, this article says:

"A Judge of Prominence."

"James M. Benton, the judge of the Circuit Court for the Twenty-fifth Judicial District, composed of Clark, Jessamine, Madison and Powell Counties, is forty years old and lives at Winchester, which has been his home for twenty-six years. He is a native of Madison County, and was educated in the public schools of the county and at Central University at Richmond, and received his degree of law from the University of Virginia. His parents still live at the little village of Waco, in Madison County.

Politically Judge Benton is a Democrat, and he has always taken an active interest in the affairs of the party. In April, 1902, he was appointed circuit judge by Gov. Beckham to fill the vacancy occasioned by the death of Judge Thomas J. Scott. In 1903 he was elected to the full term without opposition. In 1909 he was renominated by the Democrats of his district, receiving a majority of 2,400 over his opponent, and carrying 58 of the 60 voting precincts in the district. The Republicans gave him no opposition at the general election. He had never held nor sought any other public office.

Some of the most important cases in the judicial history of the State have been tried by Judge Benton. His decision in the Berea College case, which declares the law to be that no mixed school can be conducted in Kentucky, affirmed by the Court of Appeals, and also by the Supreme Court at Washington."

An Interesting Weekly Letter.

For the past few weeks we have been printing a letter from the Nation's Capitol under the head of "Vital Washington News." Every reader of the Times should not fail to read it carefully as it contains interesting facts. It is prepared by Clyde H. Tavenner and furnished newspapers by the Democratic Congressional Committee and is therefore reliably true. Don't fail to read it every week.

Stringent Rules Adopted.

Stringent rules have been adopted by the State Board of Education to prevent the sale of examination questions for teachers' examinations and it has been held that if any teacher fails to attend the full session of the county institute that the teacher's certificate shall be revoked.

All applicants for certificates must be 18 years old before taking the examination rather than 18 when they begin teaching.

It will be to your interest to see our line of spring and summer suits and odd pants for men and boys before making your purchases. This season's styles are unusually pretty and we can show you all the new colors and cuts and at prices that will interest you. Hardwick & Co., Staunton.

No Race Suicide in Powell.

John Arthur living near Stanton has three living daughters the youngest married Nick Cookwright. Five weeks ago one pair twins were born to her; One week from that time the next oldest daughter who married Gip Shouse gave birth to a pair of boys; four weeks from that time the oldest daughter, Mrs. Cash Abney gave birth to twin girls. Dr. Lemming attended all three births. The Doctor says he has during 25 years practice in this county witnessed the birth of two sets of triplets. The triplets were on each occasion two boys and one girl. The boys all living, but the girls are dead. The Doctor was also happy to say that the most of these births were Democrats.

Ordinance Upheld.

Under the provisions of Section 3637 the Kentucky statutes councils of fifth and sixth class cities have the authority to pass ordinances not in conflict with the general laws. This decision was made by the court of appeals in the case of the commonwealth against the Illinois Central railroad, affirming the judgment of the Ballard circuit court. The railroad company had been indicted for obstructing the streets in Wickliffe by building a track across them, but the railroad company claimed that the track had been constructed under an ordinance and the case tested the right of the city council of pass such an ordinance. Fifth and sixth class cities were left out of the general statutes enacted under Section 156 of the constitution.

Destructive Storm.

A terrific thunderstorm visited Clay City last night and did considerable damage. The cupola of the Methodist church was struck by lightning, the current running through the vestibule and splintering up the window and casing, tearing loose the plastering on the inside and the weatherboarding on the outside. The damage will probably amount to \$150 00.

Dr. Martin's residence was also struck but little damage occurred. Considerable rain followed the electrical storm.

About four-fifths of the telephones in the city were burned out by the lightning and this will greatly cripple the service for a few days.

There were 188 business failures in the United States for the week ending June 9.

A Card of Thanks.

I desire through the Clay City Times to thank my neighbors and friends for their kindness to me when my home was saddened by the deaths of my two daughters, Mrs. Anna Baber, who died in Hamilton, Ohio, two weeks previous to the death of Della, who died at my home near Clay City. With the kindness of my friends and the help of my Master I will try to lay these burdens by.

Respectfully, Allen Gravett.

Many counties in this Congressional district are offering up favorite sons as congressional timber with which to flay Langley. This may well be taken as an omen of good luck for the party this fall. No county wants their candidate to be defeated any time, and their scramble to furnish the lucky man reminds us of the better day for Democracy in this district when it always went the right way by a majority ranging from 1,500 to 3,500.

In accepting the Republican nomination for Congress at Mt. Sterling Friday, John Langley said that when he dies he wants to be buried in Peter Cave precinct, Martin county, because it does not contain a single Democrat, and yet he thinks some Democrats will be fool enough to vote for him.—Winchester Democrat.

Wonder if John won't begin the building of his turnpikes in Peter Cave precinct too?

Caleb Powers, of Goebel murder notoriety, claims that he will carry the 11th Congressional district Republican primary by 15,000 majority. Well, we shouldn't wonder. Powers has the approval of his party's leaders, and the 1900 episode thoroughly brands him as true to his party's demands regardless of the results, which to his part only proved to be seven years in jail, the final result however, being a crown of honor heaped upon his head by his party because of his nerve and bravery?

The Winchester News, the only daily paper in this Congressional district has been independent in politics all the time, but it has seen so much of Langley that it will oppose him if the Democrats put up a good man.

The ice cream supper at the Methodist church Saturday night netted quite a neat little sum. The whole affair was promoted and carried out by three little girls, Misses Ruth Eaton, Reese Shlmfessel and Betsy Johnson. These little girls deserve full credit for their perseverance and final success of the festival.

In Memoriam.

In memory of Della Gravett, who was born April 14th 1895, died May the 24th 1910. She had been an invalid for eight years and endured her sufferings with great patience, and only the family could realize her condition.

Our hearts are sad today under this mournful gloom, For Della has passed away to her eternal home.

Yet would we call her back again, Though with a smile and beaming eyes When the Savior kindly called her To her home beyond the skies. We'll grieve not for Della, she has only gone before.

And with Angels she is waiting on the other shore.

The bereaved family have the deepest sympathy of the friends and neighbors. A Friend.

To The Good People of Powell County.

I am sure that if you knew how many little Orphan children are in the Orphans' Home at Clay City, you certainly would help us feed and clothe them. Most of them are from Powell County, your own neighbors and the children of your friends. There is not a finer lot of children in Kentucky, but they were homeless and penniless. They have no means of support except the gifts of good people. There are between twenty and thirty in the Home, entirely dependent upon charity for their daily bread. The Home itself was the gift of two noble Christian women in the South and it is supported almost entirely by people at a distance. Anything they can eat or wear will be most gratefully received and abundantly rewarded by their heavenly Father. Surely the good people of Powell County will not let these little ones, who represent their Savior on earth, suffer for want of food and clothing.

Any gifts may be sent to Mrs. Virginia C. Staples, Clay City Kentucky, in charge of the Home.

OAKLAND PIANOS

Our aim is the production of a popular, up-to-date, moderate price piano, possessing that quality of tone, worth, value and durability heretofore not found in pianos selling at comparative prices. The officers of the Oakland Piano Co. are practical piano men whose life-long experience in the building and marketing of pianos is concentrated in the development of those essential quality features that attract the careful buyer. Our policy is to build one style of case and one grade of piano, thereby increasing our output, reducing the cost of production to the minimum, and permitting us to offer quality and individuality in the "Oakland" piano impossible to obtain any other way. Our new factory is the best equipped and most up-to-date plant in the world, having an output of 5,000 pianos annually. In tone quality in the scale, in the general construction throughout the finish, style, workmanship—and in durability, we claim the "Oakland" piano has no equal at the price. If your dealer don't handle the "Oakland" piano, write direct to us for catalogue and special introductory price. OAKLAND PIANO CO., 415 Steinway Hall, Chicago, Ill.

Don't Experiment With a Cough
When Dr. Bell's Pine-Tar-Honey has been used by millions of people for sixteen years with a steady increasing demand. Look for the Bell on the Bottle.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and led her shavings. His theory was that it didn't matter what the cow ate so long as she was led. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

"My little girl who was afflicted with St. Vitus' Dance is now entirely well, after taking Dr. Miles' Nervine only four months." MRS. C. G. BENNETT, Alma, Mich. These diseases have been cured in so many instances, that we do not think there is any longer any doubt that they are curable diseases. Being nervous diseases they yield to the soothing and strengthening influence of

Dr. Miles' Nervine.

Though stubborn, persistent treatment is almost sure to effect a cure by restoring nervous energy. The first bottle will benefit; if not, your druggist will return your money.

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified. FOR KIDNEY, LIVER AND STOMACH TROUBLE it is the best medicine ever sold over a druggist's counter.

Vital Washington News.

Indications are that Congress will pass, over the protest of the Democrats and Progressives, a railroad regulation bill that will not provide for a physical valuation of railroads.

The millionaire colony of the Senate, some of the members of which own stock in railroads, fought desperately to kill every physical valuation amendment proposed.

A physical valuation would expose to the country the extent to which railroad stocks have been watered, and would, therefore, tend to prevent over-capitalization in the future and pave the way for reasonable freight and passenger rates. This is why the railroads fear it.

The Interstate Commerce Commission, partisan Republican in make-up, has recommended physical valuation year after year. The Commission, in its 1st annual report, somewhat hopelessly, said: "The Commission has, in previous reports, expressed the opinion that it would be wise for Congress to make provision for a physical valuation of railroad properties, and desires to reaffirm in this report its confidence in the wisdom of such a measure."

Physical valuation was recommended by Roosevelt time and again. This is at least one Roosevelt policy that Mr. Taft has deserted cold-bloodedly. The President has raised neither voice nor pen on behalf of physical valuation.

Yes, the Supreme court, in the Nebraska rate case, held that "the basis of all calculation as to reasonableness of rates must be the fair value of the property being used for convenience of the public." As the Interstate Commerce Commission does not know the value of a single railroad, it must fix reasonable rates by sheer guesswork.

As progressive legislation, a railroad regulation bill without a provision for physical valuation, is a farce.

The national Democratic platform of 1908 declared "for efficient supervision and rate regulation of railroads" and to that end strongly recommended the taking of a physical valuation.

But when it is considered that Harriman contributed \$250,000 to the Republican campaign fund of 1908, and the railroads, that

probably numerous other railroad magnates advanced equally large sums, and that the very bill Congress is about to place upon the statute books was originally drawn in New York and submitted to the railroad interests before being introduced in Congress, it is not so strange that physical valuation amendments received their death stabs even after passed by a goodly majority in the House of Representatives.

Oh, American people, you must be more vigilant than you are if you would continue to deserve the name of a patriotic people!

Republican Senators who most frequently visit the White House are:

Aldrich of Rhode Island, acknowledged Congressional representative of Wall street and the tariff trusts.

Lodge of Massachusetts, who declares the ultimate consumer to be a myth.

Depew of New York, chairman of the board of directors of the New York Central and Hudson River railroad, and a director of 62 other transportation and franchise corporations.

Senators Stephenson of Wisconsin, and Guggenheim of Colorado, who are frequently referred to as having bought their way into the Senate.

And here are the Republican Senators with whom the President does not confer: LaFollette of Wisconsin, Clapp of Minnesota, Dolliver and Cummins of Iowa, and Bristow of Kansas.

"Attorney General Wickersham, former sugar trust attorney," is quite proper, after all.

When Representative Henry T. Rainey, of Illinois, made the above reference to Wickersham some time ago the latter professed to have been greatly outraged, and had a letter read on the floor of Congress in which he indignantly denied the accusation.

By examining Representative McKinlay of California, who was praising and defending Wickersham in Congress with information furnished him by the attorney general, Mr. Rainey has just brought out these admissions:

That Wickersham and Henry W. Taft, the President's brother, were formerly members of the law firm of Strong & Cadwallader; that for services rendered the theiving sugar trust "Brother Henry" received \$26,750; that this sum was turned over to Strong & Cadwallader, and that Mr. Wickersham drew down and pocketed his share of the fee without indicating any insurgent tendencies.

"Wickersham, former sugar trust attorney," is, therefore a legitimate appellation for the Attorney General of the United States, who advises that there be no congressional investigation of the sugar trust because it might give "immunity" to the "higher-ups!" Selah!

Secretary of the Interior Ballinger has "indefinitely suspended" H. T. Jones, special agent of the land office, who was associated with Louis R. Glavis in the investigation of the Alaskan coal claims and who corroborated Glavis' testimony before the Ballinger investigating committee. Jones is the eleventh man Ballinger has forced out.

In the debate on the President's railroad regulation bill,

Senator Dolliver of Iowa, Republican, said: "The whole atmosphere of our present day legislative life is saturated by the suspicion that even the English language requires watching." What did he mean?

Whatever may be the principal cause of the increased cost of living, (and the masses believe it is excessive protection,) political economists are practically agreed that the most practical way to lower the cost of living is to reduce the tariff on the necessities.
